Work Experience

Web Developer / IT Specialist

2022 - 2024 **Talisay CityHall ICT**

- Developed, maintained, and updated the official WordPress-based website for Talisay City Hall to ensure accurate public information and accessibility for citizens.
- Customized WordPress themes and plugins to improve website functionality, layout, and user experience.
- Performed website performance optimization through image compression, caching configuration, and database cleanup.
- Applied basic SEO practices such as metadata optimization, keyword implementation, and sitemap configuration to improve visibility in search engines.
- Troubleshot website issues and resolved technical errors to maintain uptime and reliability.
- Developed a custom AI chatbot frontend that allows deployment of AI models locally or via OpenAI API integration.
